Bathrooms:

Now the hottest thing in home renovation!

Throughout New Zealand, FIX IT Building Services is asked to do more bathroom makeovers and renovations than any other room. Research shows that adding or improving a bathroom can add more value to your home than any other type of home improvement.

More than ever, we expect bathrooms to fulfill a range of functions. There is a trend away from cramped, purely functional spaces to larger bathrooms where people can relax. Bathrooms can be stylish places of retreat within the home. Even where space is tight, clever planning and positioning of fittings and furniture can ensure time spent in the bathroom is truly pleasurable.

10 hot trends in bathroom design:

1. Luxury
2. Bigger
3. A room with a view
4. More adventurous sink designs
5. Wall-mounted toilets, sinks and cabinets
6. Clean lines
7. Natural colours and materials
8. Super showers and spa baths
9. Clever storage solutions
10. Clever lighting
